San Min 3x3, 1¼x1¼, 1x1 and 5/8x5/8 inches

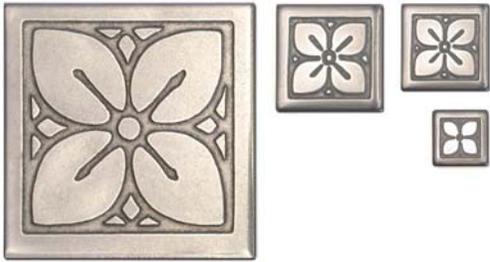

Prairie Square 3x3, 1¼x1¼ and 1x1 inches

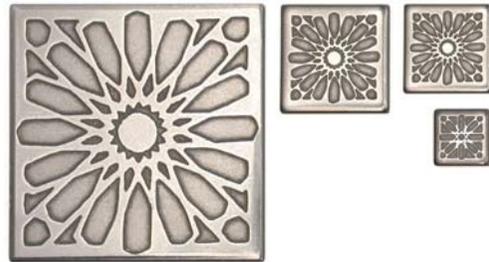

Frame 3x3, 1¼x1¼, 1x1 and 5/8x5/8 inches

Jasper 3x3, 1¼x1¼, 1x1 and 5/8x5/8 inches  
 Our 3, 1¼ and 1 inch Jasper designs are comprised of over 25 different circular patterns. An order for Jasper tiles will include a random assortment of these patterns.

Lucerne 3x3, 1¼x1¼, 1x1 and 5/8x5/8 inches

Window 3x3, 1¼x1¼, 1x1 and 5/8x5/8 inches

## Innovative Design with the Finest Materials

Lineage tiles are made from solid stainless steel and bronze. They have a living finish, with no coatings or chemical patinas applied over the metal. The surface of Lineage tiles has been designed to mature with wear and to use the scratches and abrasions that occur with everyday use to its advantage.

While employing modern techniques to create Lineage tiles, our design philosophy and processes are rooted in a strong sense of history. The inspiration for Lineage came largely from intaglio printmaking methods dating back to the 16th century.

Our tiles can be used in virtually any application: wet and dry, indoors and out, on walls and floors, countertops and fireplaces, showers, pools and even the most high traffic applications. Our stainless steel is incredibly resistant to oxidation and holds a beautiful luster. Our custom bronze was chosen for its lovely color, strength and natural patina. The combination of durability, beauty and flexibility make Lineage tiles a unique addition to any space.

All tiles are shown less than 50% actual size.

Custom sizes and patterns are available by special order.

With the exception of our molding liners, all Lineage tiles are 1/8 inch thick.

All Lineage designs and sizes are available in both stainless steel and bronze.

STAINLESS STEEL AND BRONZE

We think one of the nicest ways of using Lineage tiles is by creating random and repeating patterns using our patterned tiles and blanks.

Below is a quick reference to our Hourglass random pattern which appears on the cover of our tear sheet/brochure.

This random pattern repeats on an 18 inch square interval to match a standard backsplash height.

Per 18 inch square it uses the following tiles:

25 3x3 inch blanks

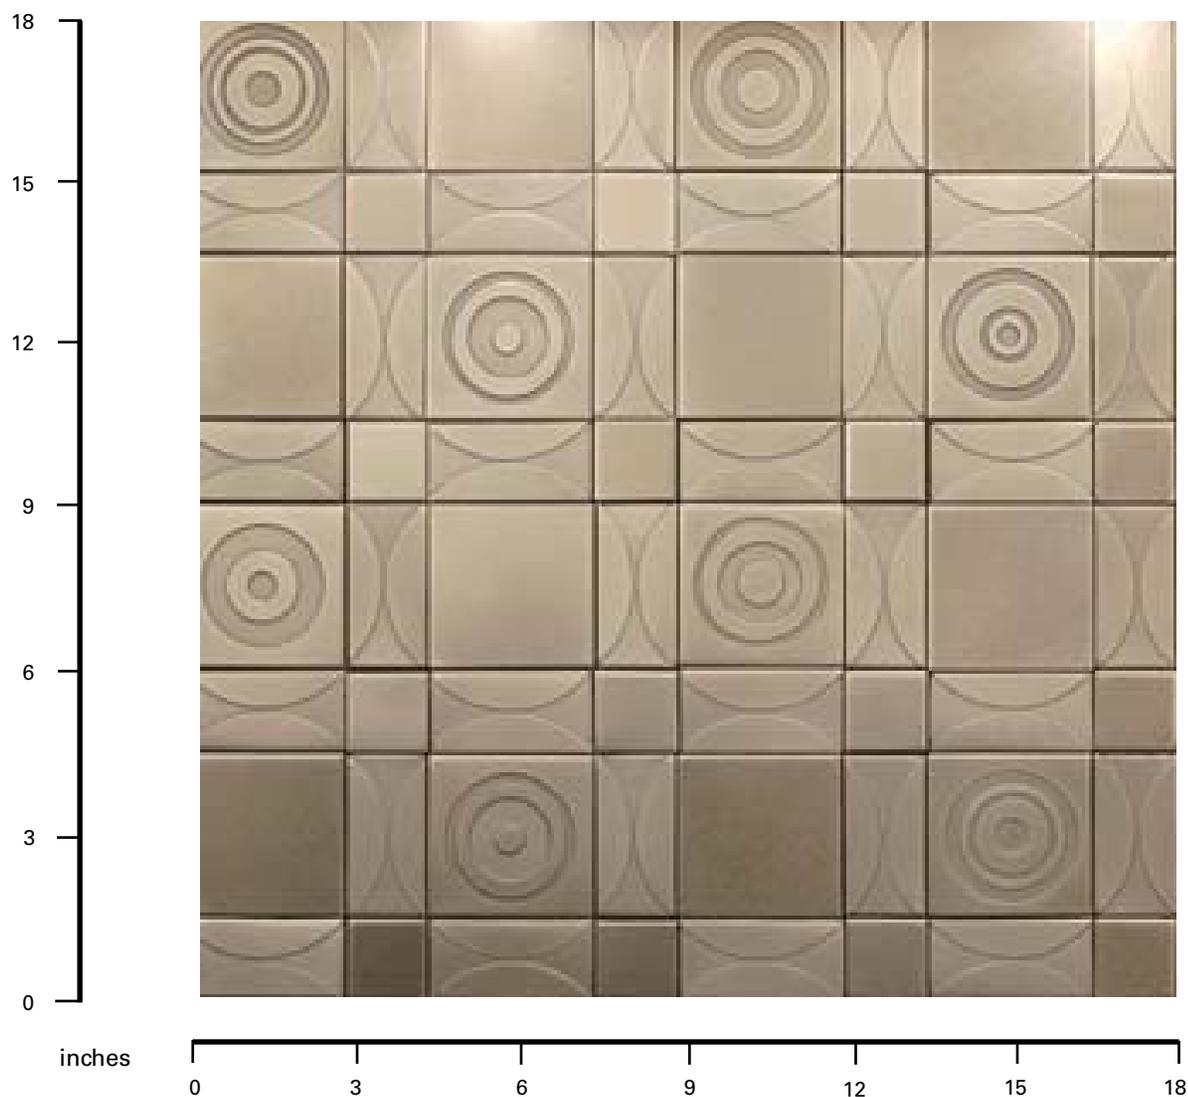

13 1½x3 inch Hourglass

6 1½x4½ inch Hourglass

Let us know on your purchase order that you are ordering this pattern and we will enclose a template of the pattern with your order as a guide for the installer. (A good installer can also move a few key pieces as the installation progresses so the 18 inch square pattern will not be noticeably repeated.)

We think one of the nicest ways of using Lineage tiles is by creating random and repeating patterns using our patterned tiles and blanks.

Below is a quick reference to our Jasper and Hourglass pattern.

This pattern repeats on an 9 inch square interval. This pattern stacked two high matches a standard backsplash height.

Per 18 inch square it uses the following tiles:

8 3x3 inch blanks

16 1½x1½ inch blanks

8 3x3 inch Jaspers

32 1½x3 inch Hourglass

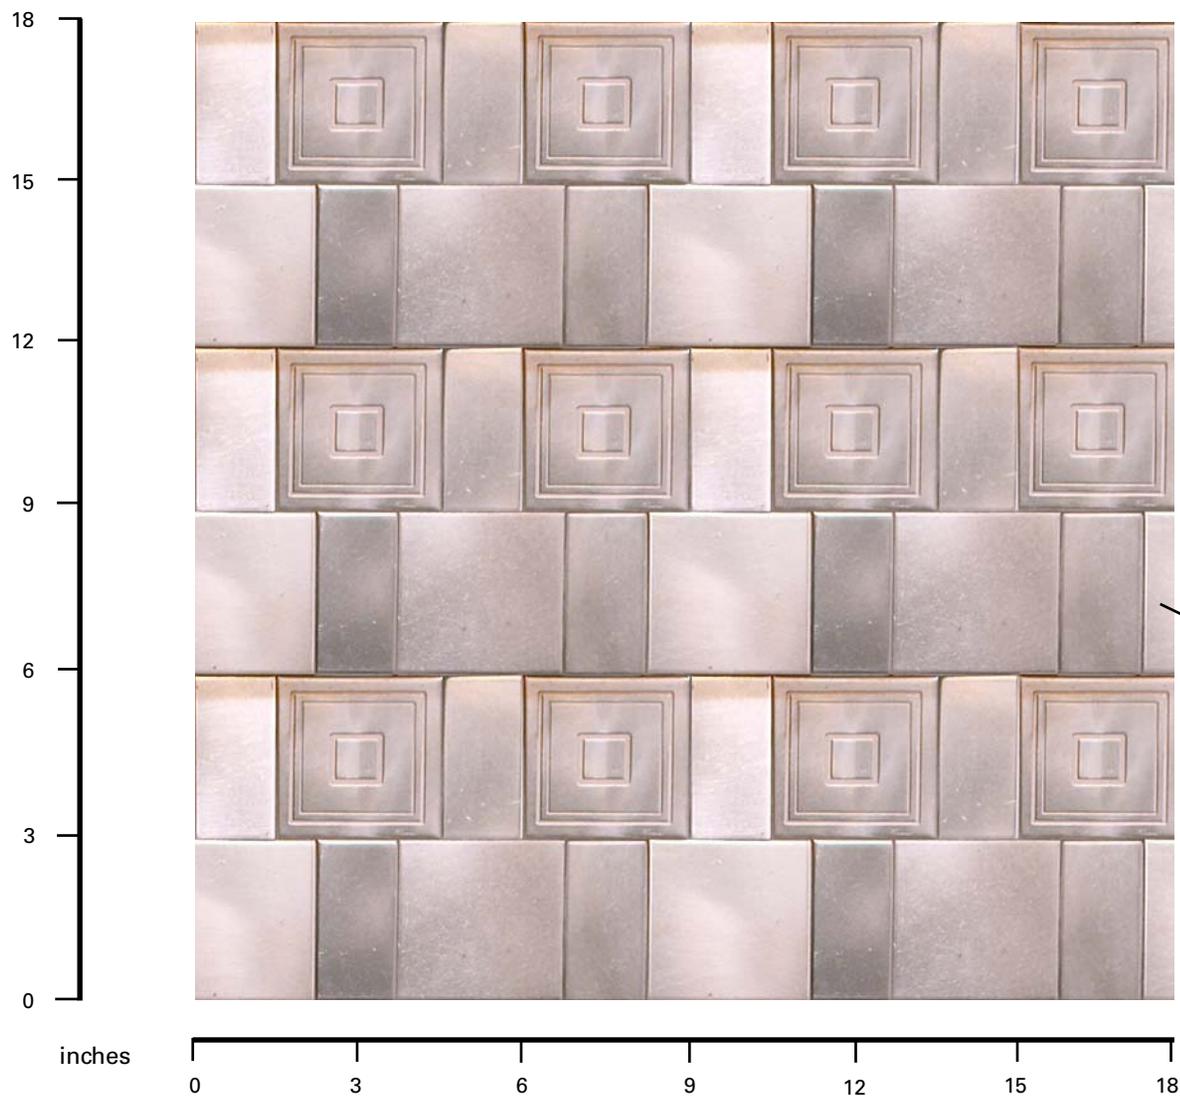

Let us know on your purchase order that you are ordering this pattern and we will enclose a half-scale template of the pattern with your order as a guide for the installer.

STAINLESS STEEL AND BRONZE

We think one of the nicest ways of using Lineage tiles is by creating random and repeating patterns using our patterned tiles and blanks.

Below is a quick reference to our Frame & Blank Basket pattern which appears in our brochure.

This random pattern repeats on an 18 inch high interval to match a standard backsplash height.

Per 18 inch x 18 inch square area it uses the following tiles:

12 3x3 inch Frames

12 3x3 inch blanks

24 1½x3 inch blanks

Let us know on your purchase order that you are ordering this pattern and we will enclose a template of the pattern with your order as a guide for the installer.

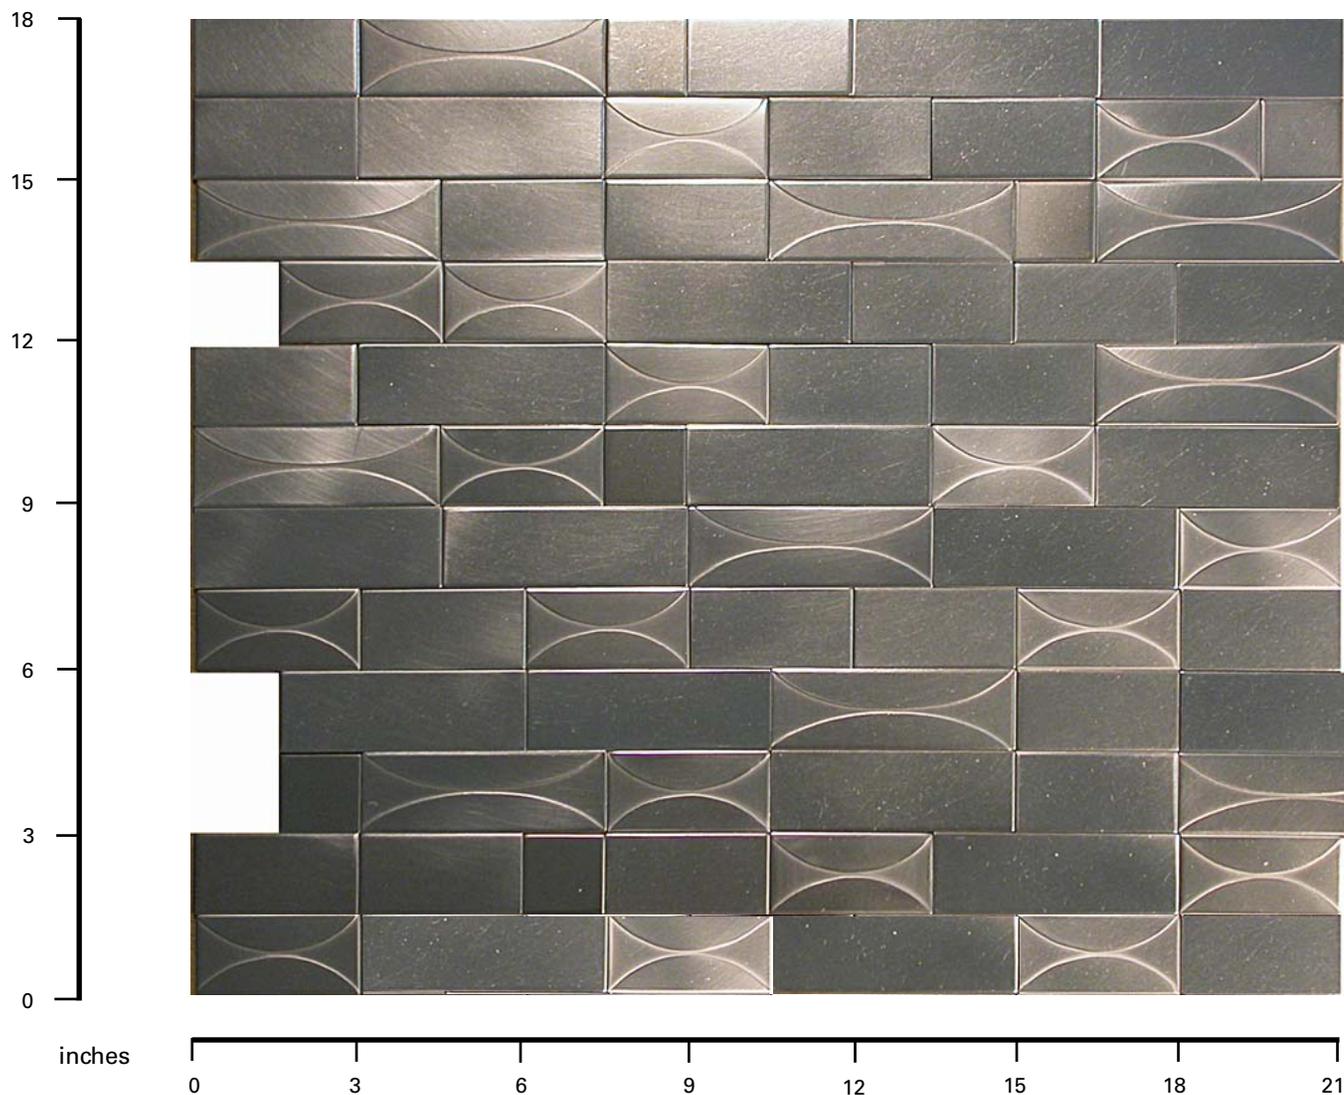

Tip: You can use a 3 inch cut piece of our 5/8x12 inch blank liner to start and end the pattern.

STAINLESS STEEL AND BRONZE

We think one of the nicest ways of using Lineage tiles is by creating random and repeating patterns using our patterned tiles and blanks.

Below is a quick reference to our Bronze Jaspers in Random Stainless Field pattern.

This pattern repeats on an 18 inch square interval.

Per 18 inch square it uses the following tiles:

- 3pc 3x3 inch bronze Jaspers
- 16pc 3x3 inch stainless steel blanks
- 7pc 1½x4½ inch blanks
- 20pc 1½x3 inch blanks
- 7pc 1½x1½ inch blanks

Let us know on your purchase order that you are ordering this pattern and we will enclose a template of the pattern with your order as a guide for the installer.

Note: A good installer can also move a few key pieces as the installation progresses so the 18 inch square pattern will not be noticeably repeated.
